Let's Start!

You can climb the stairs of the temple!

Learning Outcome

Accurately use information about travel and vacations in social situations.

Ask your partner:

- Do you like to visit old temples and buildings? Why or why not?
- If so, what do you like to do there?

Can Do Statements

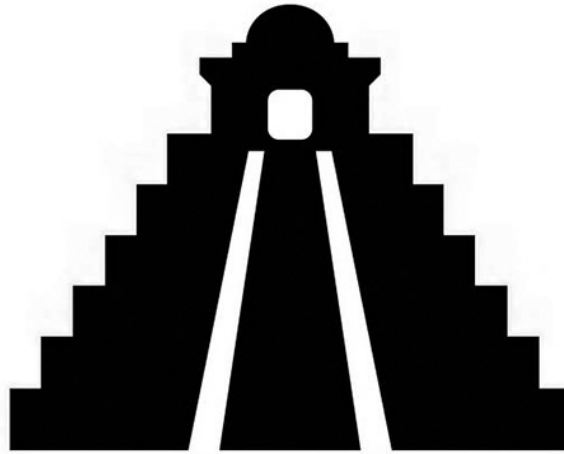

- I can talk about places and attractions.
- I can talk about things to do or take on a trip.
- I can ask and report about events and things.

Let's Explore!

John explains more about Machu Picchu. Who were the Inca?

Instructions: Read the text aloud.

You can see the ruins of temples, statues, palaces and pottery that archaeologists found. You can also take pictures of all sorts of artifacts. These objects told archaeologists a great deal about the ancient Inca civilization. The first thing explorers found when they entered the forgotten city was an Intihuatana, or a pyramid. You can climb up part of it today, if you would like.

Priests used the flat top of the pyramid for ceremonies. You can observe the palace balconies and take pictures of the flat rock at the top of the pyramid. Scientists think nobles watched ceremonies from a seat on their own balcony. The Inca empire started as a small group. The Incan empire later stretched the length of western South America.

Let's Practice!
