### Let's Start!

It's a long bus ride to Machu Picchu!

### Learning Outcome

Accurately use information about travel and vacations in social situations.

### Can Do Statements

- I can ask and say how far a place is.
- I can give directions.
- I can ask who, what, when, where questions.

### Ask your partner:

- What do you know about Machu Picchu?
- Would you like to go to Machu Picchu? Why or why not?

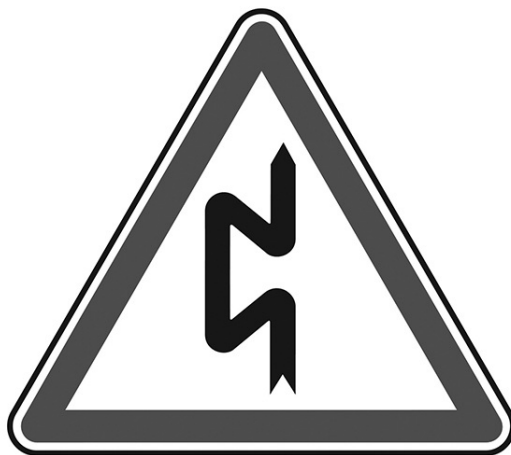

## Let's Explore!

John **talks**\* to the bus driver. What does he ask him?

\* It is unsafe to talk to the bus driver as he drives. Be careful.

*Instructions: Read the text aloud.*

**John:** Good morning! How are you?  
**Driver:** Very well, thanks! Is the group ready for your trip to Machu Picchu?  
**John:** Yes. Everybody get on, please!  
**John:** How long is the bus ride?  
**Driver:** Well, weather and traffic permitting, it takes about 5 hours.  
**John:** I see. How far is it?  
**Driver:** I think it is about 100 kilometers.  
**John:** We are American so we only know the Imperial system.  
**Driver:** Imperial?  
**John:** We use miles.  
**Driver:** I think that's about 60 miles.  
**John:** Five hours to go 60 miles? Why does it take so long?  
**Driver:** The roads are twisty here, and the traffic is slow. We have to go up the mountain and through small villages. We go across many bridges.  
**John:** How long does the walk up to Machu Picchu take?  
**Driver:** That depends on how fast you climb!

## Let's Practice!

## Target Words

- **imperial system** (noun): the measurement system used in the United States and England  
e.g. We use the Imperial system, so I don't know how many kilometers it is.
- **twisty** (adjective): having a lot of turns in the road  
e.g. The roads are very twisty.
- **traffic** (noun): vehicles on the road  
e.g. There is a lot of traffic on the roads in Peru.
- **village** (noun): an area smaller than a town  
e.g. There are many villages along the road to Machu Picchu.
- **weather permitting** (expression): if the weather allows  
e.g. We can go hiking tomorrow, weather permitting.
- **That depends on ...** (expression): the situation relies on another situation  
e.g. That depends on how fast you climb!

## Learning Points

### Saying How Far a Place Is

When you want to know how far a place is, you can use the question: *How far is ... ?*  
You can reply with a specific distance if you know the answer, like *It's 50 yards away.*

The United States uses the Imperial system, not the metric system.

If a place is nearby, you use yards to say how far it is.

If a place is far, you use miles to say how far it is.

| Imperial System | Metric System   |
|-----------------|-----------------|
| 1 mile          | 1.6 kilometers  |
| 1 yard          | 90 centimeters  |
| 1 foot          | 30 centimeters  |
| 1 inch          | 2.5 centimeters |

### Wh- Hw Questions

You use Wh- Hw Questions to get specific information about people, places and things. You often ask these when you travel somewhere new.

Wh- Hw Questions are also called Information Questions. Both types of questions are often referred to as just Wh- Questions.

| Question Word | Example                           |
|---------------|-----------------------------------|
| What          | What time does the bus leave?     |
| Where         | Where does this road go?          |
| Who           | Who can I speak to about tickets? |
| Why           | Why does the trip take so long?   |
| When          | When do we get to Machu Picchu?   |
| How           | How much is the ticket?           |
